

Products

CONFLEX
C2S1E

Premium rubber-modified tile adhesive designed for demanding or high traffic applications. Excellent all-round adhesive suitable for commercial, high traffic and Tile-on-tile installations.
6-8 hour setting time / 7m² per bag*

White tile adhesive with superior anti-slip. Able to hold a 600x600mm tile. Smooth feel for easy trowelling. Suitable for commercial and high traffic installations.
<24 hours setting time / 7m² per bag*

**ULTRA
MASTIK**
C2S1ET

MEGAFIX
C1S1T

Brilliant white adhesive perfect for use in bathrooms, with mosaics or when a very white adhesive is needed. Smooth, unsanded formulation means that grout joints do not need to be raked out before grouting.
<24 hours setting time / 7-8m² per bag*

Rubber modified flexible tile adhesive. Well suited to general tiling where flexibility is desired. Suitable for domestic and general tiling.
<24 hours setting time / 7m² per bag*

EXCELFLEX
C1S1

ASAFLEX
C2S2E

Two part adhesive with exceptional flexibility and superb bond. Designed for jobs where flexibility is critical. Suitable for commercial and high traffic tiling and can be used outdoors. Best choice for tiling onto timber or acoustic mat. Off white colour.
<24 hours setting time / 8m² per bag*

Superior high polymer modified tile adhesive. With in-built "Evo-Lastic Technology" making it perfect for laying heavy large format tiles. Off-white in colour.
6 hours setting time / 7m² per bag*

EVOFLEX
C2S2ET

SUPERFIXALL
C1E
(C2S1E WHEN UPGRADED WITH MEGALASTIC)

White tile adhesive designed for use on rigid surfaces. Suitable for domestic tiling. Use with Bostik Megalastic to upgrade flexibility and bond strength but maintaining long open time
<24 hours setting time / 6m² per bag*
